

1. Cut paper on dotted line to make a square.
2. Fold in half to make a rectangle, then fold in half again to make a square. Unfold that last one so that you have a rectangle again - the crease marks the middle of the paper. Make sure the printed design is on the outside.
3. Take the bottom left corner and fold it up and BEHIND the page so that the edge matches exactly with the edge of the printed pattern. The bottom point should be at the crease you made earlier.
4. Repeat with the bottom right edge. You should have a heart-shape, with the printed design on the right side.
5. Fold in half again, keeping the printed design visible. Cut off the pointy top parts (everything above the grey printed part)!
6. Using sharp scissors, cut away all of the grey design.
7. Unfold carefully!
