

L

1. Cut paper on dotted line to make a square.
2. Fold in half, corner-to-corner, to make a triangle. Make sure the printed design is on the outside.
3. Fold corner-to-corner again, keeping the printed design on the outside.
4. Fold corner-to-corner again! The dome of Low should be against the last fold that you make.
5. Using sharp scissors, cut away all of the grey design.
6. Unfold carefully. Alma would be proud!
